Riparian/Grass Waterway Seeding

The Kneehill County Agriculture Service Board is continuing with their riparian seeding program through the 2015 season. Through this program land owners can obtain grass seed and the use of the Kneehill County seeding equipment for FREE!

Riparian areas & Grass Waterways provide many benefits including:

- Slope & bank stabilization
- Filter & buffer water, reducing contamination and trapping sediment
- Increase water holding capacity
- Recharge groundwater aquifers
- Maintain biodiversity
- And much more!

FREE Reverse Fenceline Weed Control

Kneehill County is committed to the control of Noxious and Prohibited Noxious weeds within it's borders. A common place for these weeds and other weed species to start is in the "headlands" of cropland, the one meter buffer strip along the fenceline left unsprayed by both the ASB roadside spraying program and the crop producer.

To help with this issue and gain control of legally regulated weed species the Kneehill County ASB is offering to spray the headlands from the field back into the ditch to gain maximum weed control. This FREE service includes the UTV spray equipment, residual broadleaf herbicide and an experienced county spraying employee, a value worth approx. \$100/acre! Call today to request your FREE Reverse Fenceline Weed Control.
